

Networks Research Workshop - Invitation

University of California, Davis

Dear Alumni and Friends,

Every year the Networks Lab conducts a workshop at UC Davis, which is mainly intended to foster communication between the networks research community at UC Davis and our friends in both industry and academia. The workshop serves as a platform to exchange research ideas and to strengthen the connection between our research community at UC Davis and the outside industry and universities. The workshop program includes student talks, alumni, faculty and guest presentations, and a panel discussion session. You can take a closer look at our last year's workshop here: <http://networks.cs.ucdavis.edu/~workshop/2005/>

On behalf of the workshop organizing committee, I wish to invite you to participate in this workshop, and to give a 20-minute guest talk, or to serve as a panelist on the panel discussion session whichever is convenient for you.

This year the workshop will be held on Saturday (May 13, 2006) from 10:00 am to 5:00pm at 1131/1127 Kemper Hall, UC Davis. Lunch, dinner, snacks, and drinks will be provided at the workshop. We would greatly appreciate it if you can RSVP to Smita Rai (rai@cs.ucdavis.edu) by Friday, April 21, 2006, and let us know whether you can participate in this workshop. If you wish to give a talk, please inform us at the earliest convenience, as it will help us to manage the schedule.

Sincerely,
Smita Rai, Danjue Li, and Daniel Wu
Student Organizing Committee,
UC Davis Networks Workshop 2006.
